LARGE LAND TAX IMMINENT SHORTLY NID BONDS MUST SELL SEPTEMBER 29

Unless Bonds Sold, Land Tax Will Ensue Says Manager District Deficit Was $508, 725 July 1st And Growing Pacific Gas Orders Bear River Suits Withdrawn Now Bond Syndicate Will Meet the Directors Today

MEETING HIGH LIGHTS

N. I. D. deficit on July 1st was $508,725.

Unless bonds are sold by September 29, land tax will be levied ranging from 40c to 50c on cheaper land to $14. or $15. an acre on improved land, says Wisker.

Will take $27,000,000 to complete irrigation system says Wisker.

Operating expenses will be in excess of $370,000 annually over estimated revenues, says Wisker.

New PED contract is in offing waiting a little coaxing.

Pacific Gas & Electric Company demands dropping of Bear River suits. Wisker says district is lost if they are.

In a meeting bristling with verbal pyrotechnics, the landowners of the Nevada Irrigation District were regaled with a gloomy picture of impending ruin at Rock Creek hall Thursday night. The stage was set for a Wisker rally but the backfire of developments has thrown the distressed landholders into further grief over pending conditions.

W. J. Sanford of Wolf took charge at the outset and with Wisker adherents being put in charge showed the setting of the picture. C. J. Rolph was invited by Sanford to be chairman and E. E. Burnett of Lincoln to be secretary. Sanford then read a series of questions having to do with the district management, finance, engineering. None of which were answered by any of the speakers. An investigating committee was proposed. Sanford stated that an investigating committee should have been appointed 20 months ago.

The meeting was then thrown open for discussion. Albert Clark, who in the Serra Hall meeting in February, 1927, announced that he was all for Wisker, stated that he had been figuring on an organization in his section to look into things. Thomas Torpey advanced a house cleaning from top to bottom.

Mrs. Deborah Gilham said she thought the present management was better than any new one that could be gotten out that she wasn't going to pay any land tax. She called on Wisker to tell how he was going to get the district out of the mess.

J. L. Rollins said we are facing a condition and not a theory, that 16,000 extra horse power could be developed by N. I. D. water on the Bear river, and that water should not be delivered outside the district boundaries.

T. L. Chamberlain was called on and stated that he had figured on an organization some months ago but that it would cost real money to do any investigating. That the District is facing an annual deficit of $200,000 a year. That it cost $30,000 to sell $69,000 worth of water last year. He couldn't see where water could be sold at $36.00 an acre in Placer county and break even. He labeled it a power scheme from the very beginning and said people will not buy any more bonds until it can be shown where more revenue is coming from.

At this juncture general manager Wisker was called to the stand and stated a mass of figures that had the audience gasping for wind. He stated that the deficit on July 1st was $508,725 due to the Milton tunnel construction and continued that the Pacific Gas had welshed on the water contract on a legal technicality and that he proposed to take it into court and test it out.

There will be deficits in other years, he said, but the present one is a back breaker ,and deficits will continue until the water sales reach $150,000 annually. There will be an operating deficit each year. There has been paid out in interest already $815,000 and $500,000 discount to the bond syndicate.

The Big Scheme

Wisker then announced that it would take $5,086,000 more spent on the MOUNTAIN SYSTEM, $3,000,000 on Bear river and $540,000 at Scotts Flat or a total of $9,226,000 to COMPLETE THE MOUNTAIN WORKS, $2,094,000 MORE ON DITCHES to serve 60,000 acres and $4,770,000 more for 180,000 acres or a STAGGERING TOTAL of $23,806,950 as the investment necessary to get an irrigation system. This will climb to $27,000,000 with the discount on sales of bonds.

At this juncture Charles Kemper of Auburn asked that Wisker keep his feet on the ground and stick to facts and that he hadn't been making any home runs with his ideas.

Another nice piece of news for the Placer county people it that it will cost $397,000 to effect a connection between the Van Giesen dam and the Pacific Gas & Electric ditch system which it is proposed to purchase at a cost of $260,000 or over a half million to give acceptable irrigation service.

He stated that the operating expense would be in excess of $370,000 a year over the estimated receipts. In filing on water of the Bear river in 1922 he had protected the district but trod on the sacred toes of the Pacific Gas and Electric Company. He had found the back gate open. The development of power is our royal privilege and the power company says, Who are you? He produced a letter dated July 27 from the power company which he said the directors hadn't seen yet. It stated that the amended complaints in superior court did not cure the Bear river trouble and another demand was made that the suits be dropped. He painted a dismal picture if the Bear river power opportunities are lost and said if they were lost, that everything is lost. This dissension is benefitting the power company which he said, had so far given the district a raw deal. Other power companies such as the Great Western and Southern California Edison were prospects as well as Sacramento, Stockton or the East Bay Utility District.

J. V. Hubbard wanted to know why Wisker should be made rich.

J. S. Corey furnished the bombshell of the meeting. He said he had heard Wisker talk for years about a land tax not being necessary and asked that the directors make no more secret contacts. You people were sold out, he declared. "My tongue is tied on one end, Wisker but yours wags in the middle!!

Wisker stated that the power sold to the Pacific Gas & Electric company was not the best power the district had to sell. He cited the cost of construction of the Fordyce rock fill dam as compared with the Bowman dam.

He said he had had a group of bankers ready to drop forty million into his PED scheme when the trouble started, but he wouldn't make any more such offers but would consider taking of the district indebtedness up to nine millions if they wanted to take a new contract with him.

C. E. Gasseway furnished the completion of the prepared program when he read a set of names for nominating committee, all presumably Wisker adherents. This was heavily voted down and the upshot was the nominations by districts as follows:

1st—J. V Hubbard.
2nd.— W. H. Robinson
3rd— Jos. Francis.
4th George Merz,
5th— Tom Casey.

The meeting was pretty well broken up by this time and the session closed.

Calvin H. Barkdull, consulting hydraulic and mining engineer, was in town Saturday on his way to Alleghany to examine the Andy Fitz mine in company with Dr. P. J. Walton, part owner of the mine. Mr. Barkdull was in an auto accident recently at the top of the South Yuba grade when Wm. Bray of Richmond was killed.

Mr. and Mrs. W. V. Tamblyn of this city are at home after a visit at Loyalton with Mr. and Mrs. E. Huntley. Mr. and Mrs. Frank May of Oakland accompanied them.

OLD COLONY MINE IS BONDED, CLYDE TILFORD

The Old Colony drift gravel mine at Goodyears Bar has been bonded by Joe Marriott, R. E. Miesse and Louie Schrimpf from Clyde Tilford, the owner. The tunnel is in 100 feet and drifts have been run to top the channel. Good pay gravel has been found on the rim of the channel and further work which will start shortly is expected to open up a large producer.

HUNTINGTON MILL IS INSTALLED AT KENNEBEC

A small Huntington mill is being operated at the Kennebec mine at Lake City owned by the Paine Brothers. An 800 foot 3 rail tram has been built from the mine down to the mill site. This is one of the promising properties of the county.

STREET LIGHT COST IS REDUCED BY COMPANY

Reductions are being made in the cost of street lighting in the various cities and towns served by the Pacific Gas & Electric Company according to an announcement made by the local office of the company today. Nevada City will have a cut in rates of $69.00 per year.

The reductions are voluntary and are said to involve a saving in excess of $25,000.00 per year to the territories affected. In the Drum Division Grass Valley will receive the largest in cut rates, a reduction of $79.56 per year on the basis of the present number of lamps installed.

These new and reduced schedules have been instituted Mr. H. M. Cooper, division manager of the company, says, to encourage the better lighting of streets and highways. The lower rates will permit the installation of more lamps and provide for the increasing of candlepower where modern lighting is not now installed.

ERNST WILL VISIT THE RIDGE FOR THIS WEEK

F. C. Ernst who proposes to establish a large turpentine industry in this section, will spend this week on the San Juan Ridge, explaining the proposition to the timber owners who have a splendid opportunity to put their trees to work at a good income, and at absolutely no damage to the trees. Mr. Ernst is ready to take all the timber that is available to roads.

Interested timber owners should leave their name and the amount of digger or yellow pine acreage that they have with K. J. Fogarty at North San Juan, Phil Curnow at North Columbia, E. B. Dudley at North Bloomfield or William Mc. Lean at Graniteville.

Mrs. W. B. Kinkead and two children, Clifford and Kathryn, of Sacramento are here spending a two week's vacation with her sister-in-law, Miss Kinkead.

Mr. and Mrs. E. W. Smith are visiting their daughter and son-in-law, Mr. and Mrs. Thomas Hall in Folsom.

Dr. E. L. Herrington and family spent the week-end here. He is interested in the Gracie mine.

MURCHIE MINE IS UNWATERED TO THE 1150 LEVEL

The work of unwatering the famous Murchie mine was completed at 3 o'clock yesterday afternoon and plans are going ahead for extensive underground work at once and the mill will be placed in operation again this week.

Drifting east and west on the 1150 level will be started at once and stoping on the 1000. The air pipe is donw to the 1000 already and will be completed at once. The hoisting equipment is ready for operations to the bottom of the shaft and work will proceed apace now that the mine is cleared of water.

The report of J. Nelson Nevis, formerly in the government service, made on the property just before it was closed down a number of years ago, is checking up in point of assays and underground workings is found to tally with the present showing which is extremely satisfying to the management who have spent a large sum of money in putting this property on a producing basis again.

Messrs. J. M. Hoff and V. M. Price are entitled to a great deal of credit for their efforts, taking the property over when the surface works were in a deplorable condition and thoroughly rehabilitating the property both above and below ground. The Murchie has the makings of one of California's large gold producers.

YOU BET MINES ARE BOUGHT BY ST. LOUIS MAN

The sale under lease and bond of the extensive placer properties of the You Bet Mining Company to C. E. Hayden of St. Louis, Missouri, marks the entry of more local capital into the local mining field and betokens considerable activity in the famous old You Bet District which was such a large producer of golden wealth in bygone years. The sale price represents a considerable figure.

The properties taken over are as follows:

Mining ground in sections 25, 35, 36, T16N, R9E.; Sec. 6, T16N, R10E.; ½ interest in Palmyra Fluming & Mining Co., por. Newark F. & M. Co. in Missouri Canyon; Missouri Canyon Placer Mine; Arkansas & Grenhorn Placer Mine; Star or Stehr Placer Mine; Red Dog P. M.; Gail P. M.; Rose & Duryear P. M.; Chicken Point P. M.; Smith & Powell P. M.; Emigrant P. M.; You Bet P. M.; Aikens & Taylor P. M.; Brown Bros. P. M.; Birdseye Canyon P. M.; Washington P. M.; Neice and West and Brown's Hill P. M.; Walloupa P. M.; Poverty P. M.; California Placer Mine plots 1, 2, 3, 4, 5, 6, 7 and 8; NW¼, Sec. 28, T16N, R10E; English Ditch; Star Ditch and interest in Irish Ditch for mining purposes.

Tom Botting, Jr., is home after a time spent with a surveying crew in El Dorado county.

Mr. and Mrs. Frank May and daughter, Mildred , of Oakland are guests of Mr. and Mrs. W. V. Tamblyn.

Miss Margaret Peard, who has been ill, is back at her position with the branch of the United Bank and Security Bank of this city.

SENATOR INGRAM HAS PASSED AWAY

Senator Tromas Ingram, one of Nevada County's finest, most highly respected and best loved citizens passed to his final reward Saturday evening after weeks of intense suffering. Funeral services will be conducted at the Jefford Parlors in Grass Valley tomorrow Tuesday morning at 10:30 under the auspices of Madison Lodge, F. & A. M. of which deceased was an honored member.

Mr. Ingram was born in England Sept. 26, 1869 and emigrated to Virginia City in 1875, and coming to Grass Valley in 1882 where he had since made his home. He entered the newspaper profession and was associated with Rufus Schonecker in the Daily Telegraph, later becoming associated with W. F. Prisk in 1893 in the publication of the Morning Union as managing editor, which position he held up to the time of his death.

For the past twelve years he had served the Third District as state senator, a position he filled with distinct credit. Fraternally he was a P. M. of Madison Lodge, P. H. P. of Grass Valley Chapter, P. E. C. of Nevada Commandery, P. E. R. and charter member of Grass Valley Lodge, B. P. O. E. and a member of Knights of Pythias, W. O. W. and Sons of St. George.

Surviving are the devoted wife, five children, Robert T., Charles R., Thomas G. and Merris T. Ingram and Mrs. Marcelene F. Squires ,the latter of Sacramento. A brother survives.

Nevada County and California journalism have lost an honored member of the fourth estate.

DEER CREEK CANAL IS FLOODING THREE MINES

The new Deer Creek ditch of the Nevada Irrigation District is causing considerable trouble to three mining properties already in the Nevada Basin district. Leakage from the ditch has filled the Le Compton mine, the Greenman shaft at the Mayflower is filling faster than the unwatering and the Gracie has had to suspend operations. Several injunction suits against further water being run in the ditch until repairs are made, are said to be pending.

Mrs. Burr West of Oakland has been the guest of her sister, Mrs. Richard R. Goyne.

Ben L. Hames, prominent Sierra City merchant and candidate for Sierra County supervisor, from his district was in town Wednesday on his way to Sacramento on a business trip.

Mrs. G. B. Finnegan and daughter, Rowena, and son, Francis, have returned to their home in San Francisco after a vacation spent here with Miss Ola Gillespie.

YELLOW JACKET STRIKE GIVING REAL PROMISE

The recent strike of specimen ore in the Yellow Jacket property at Alleghanya has all the earmarks of a strike of large proportions as the find is being developed, according to B. A. Reber, superintendent of operations for the Alleghany-El Dorado interests, who are buying the property.

The strike was made in the No. 2 raise from the tunnel at a point where quartz is six feet in width, the shoot being near the footwall. The raise is to be continued following the pitch of the ore shoot. If the values continue the operations will be highly productive on the return sheets.

The ore shoot in the No. 1 raise apparently has been pitched up again and represents a distinct shoot about 200 feet distant from the shoot in No. 2. There are eight inches of quartz showing with plenty of sulphides running into the country rock.

The pan mill for handling the high grade ore has been set up and ready for operations and with the outside ore bins filled up things are looking exceedingly bright for the future of this property.

E. E. Rodbaugh of San Diego is managing director of the Alleghany-El Dorado interests and Lloyd Wright of Los Angeles is a director. Secretary of State Frank C. Jordan is president of the company.

A beautiful piece of specimen ore with the percious yellow metal protruding is on display in The Nugget windows.

EAGLE BIRD MINE WILL RESUME ITS OPERATIONS

Operations have started at the Eagle Bird mine above Washington again with a crew under charge of Clayton Chatfield.

The dam is to be repaired as also about 100 yards of flume which went out during the high water last spring. It is expected to repair the shaft and put the property in shape for mining operation at an early date.

The lumber being removed from the old bridge over the South Yuba at Washington will be used to rebuild the bridge near the Eagle Bird and Yuba mines.

Dr. H. W. Hughes, owner of the Eagle Bird, was up from Los Angeles last week on an inspection trip.

YELLOW TIGER ASKING FOR WATER DIVERSION

The Yellow Tiger Consolidated Mining Company which is acquiring quartz properties on the Gaston Ridge near Graniteville has applied to the State Division of Water Rights for right to diversion of ten cubic feet or 100 acre feet of water from Poorman Creek for mining purposes.

Gordon M. Bettles is general manager for the company.

NOTED DEMOCRAT PAYS VISIT TO NEVADA CITY

One of Nevada City's distinguished visitors the past week was H. H. McPike of San Francisco, chairman of the Democratic State Central Committee and the man charged with delivering the state into the Al Smith fold. McPike is a quiet mannered person yet his personality is what has carried into the front ranks in his party councils.

He was accompanied by L. Otzen prominent dried fruit jobber of San Francisco.

Rose Bar Lodge of Smartsville will confer the third degree of Masonry this evening and has etxended a cordial invitation to the members of Nevada Lodge to attend. A supper wil be served folowing the ceremonies.

Mr. and Mrs. Bob Allen and son, Eldred, left Tuesday morning for a vacation to be spent in Oakland and other bay cities.

Miss Dorothy Fegan of Alleghany was in our city Sunday.

COMMENCEMENT EXERCISES WILL BE HELD ON SATURDAY

CAMPTONVILLE, Aug. 4, The commencement exercises for the Branch of the Marysville union high school will be held at the Masonic Hall next Saturday evening. The community will be greatly honored by the presence of State Superintendent of Public Instruction William J. Cooper, who will deliver the address.

Three students will receive diplomas, Miss Valentine Wilson, Winsmore Chapman and John Lord.

A very fine program has been arranged with a play by the high school and the literary numbers. No admission will be charged.

The importance of the branch high school to such a distant community as this is more and more realized. It gives the children here more educational advantages and permits them to live at home for two years more, making a great saving to the parents. The children who have gone from the local school have made very fine records in the larger schools, a credit to the school and the instructor, Mrs. Kate Hope Livingston, and it is expected that the three students who graduate this month will keep up the good record set by those before them.

George H. Wilson, of Clarksburg, candidate for Assemblyman of this District arrived Thursday on an electioneering visit to the mountains. He is receiving a hearty reception.

Mrs. Phyllis Riddell, of the Haldyard Mine, motored to Nevada City City Friday on a short business visit.

Henry Jacobs of Nevada City was in town Friday on business.

Wallace Blair and sister, Miss Verna Blair, of Oakland were in town Friday on a short visit. They are former residents, not having been here for twenty years.

Leonard L. Bishop, William O. Grant and Nafe Thompson motored to Grass Valley Friday on business.

Mr. and Mrs. Earl L. Cleveland arrived Friday evening from Sacramento on a visit.

Miss Geraldine Cleveland celebrated her fourth birthday Thursday.

Peter Cassini of San Francisco arrived Thursday on a visit to friends at Oak Valley.

Fred E. Aldous of the Bald Top mine returned a few days ago from a business visit to Los Angeles.

Jake Zenacco motored to Nevada City with a truck load of lumber Wednesday.

B. F. McNaught left Wednesday for a business visit to Los Angeles.

The Meek Mercantile Company has put some new fish in their acquariums in the Forest. The new set composes Japanese minnows, bass, and catfish.

Leslie Woods of Pike City was in town Thursday.

Mrs. M. G. Calvin, celebrated raviola maker, spent Thursday at the Hotel Francis making a batch of raviolas which was greatly enjoyed at the hotel.

Arthur Deal of Nevada City arrived Thursday.

Miss Florence Humphrey of Mill Creek spent Thursday afternoon visiting in town.

A number of local people went fishing Wednesday evening at Bullards Bar Dam for catfish.

TRAVELERS CHEQUES AND VACATIONS GO ALONG TOGETHER

The inconvenience and worry of loss of funds when one is away from home may be overcome by the purchase of Travelers' Cheques before you leave. Perhaps you have experienced the embarassment and delay which frequently occurs when personal checks are presented away from home. Now this is not at all necessary.

You simply go to the bank, get the checks in conveinent denominations, in neat, leather-like walelts. Place them in your pocket or in a handbag, and they are there when you are ready to use them. No fuss, no questions asked, your money is handed over to you as though you were presenting a bank note or a check at your own bank. If someone robs you or you lose the wallet, you are protected. There is no loss.

Their cost is only seventy five cents for a book of $100 in checks of different denominations. No one will care to risk loss or embarassment for such a small sum.

POLITICAL NARCOTICS BILL MAKES FRIENDS OF THE WOMEN

The organized women of the state are a unit in their approval of the candidacy of Mrs. Cora M. Woodbridge for the Assembly from the 9th District, for to her untiring efforts and her intelligent handling is due the enactment into law of the measure known as the Narcotic Bill.

This bill provided for a state institution for the care, cure and rehabilitation of the narcotic addict, and while it was known at the pet measure of the Federation of Women's Clubs it had the backing of the Native Daughters of the Golden West, The Parent-Teacher Association, The Women's Christian Temperence Union, League of Women Voters and other organizations.

Violent opposition developed to his bill, emanating from the under world and the dealer in illicit drugs and it was due to the efforts of Mrs. Woodbridge and her knowledge of Legislative proceedure that this bill was written into the law.

California with its reputation for humanitarian legislation now has an institution unlike any other in the world, for as a result of the Woodbridge Narcotic Bill, there was opened in the outhern part of the state on the first of July a well equipped hospital for care, cure and rehabilitation of the poor unfortunate creatures who are victims of the drug evil.

The United States Government is now proposing through the Porter Bill in Congress to establish two Federal institutions modeled after the California plan.

Dr. Mariana Bertola of San Francisco, Past President of the Federation of Women's Clubs, also past State President of the Native Daughters of the Golden West, herself a strong advocate of the Narcotic Bill has to say of Mrs. Woodbridge:— "I heartily commend Mrs. Cora M. Woodbridge, not only for her work on the Narcotic Bill, the Badham Bill and many others, but most of all do I commend her fearlessness, her honesty and her mental ability.

Mrs. Woodbridge's popularity with her fellow legislators and her efficiency as a representative in the state legislature cannot be surpassed; she is an asset to any district or any community, especially to any district or community that is progressive and up to date,

"I wish we had more women like her."

The American Motorists' association has figures to show that the average automobile costs its owner $365 a year. A number of factors enter into the question whether it is a dollar a day well spent. In many cases families are enjoying this dollar a day who didn't get any good out of it when it was going thru the swinging doors of a saloon.

57 VARIETIES IN MINES MINING EVENT STATE FAIR

Some 57 varieties, (not catsup if you please) of commercial minerals are produced in California, says A. C. Hardison of Santa Paula, director in charge of the minerals and mining display at the State Fair this year, September 1 to 8, and all these will be on display at the state's annual tabloid.

Minerals this year will be located in the various county booths in which they are mined, and this practice will be kept up until a natural building is erected at the State Fair grounds.

The counties of El Dorado, Placer, Mariposa, Riverside and San Joaquin have already signified their intention of having elaborate mineral displays. Nevada county apparently will not be represented, the various boost organizations taking no interest in the matter.

It is not true that the political orations are mostly gas, as there is also a lot of hot air in them.

Nations declaring that they seek only "adequate armament" or "parity" can easily drift into a navy-building race and find themselves all at sea.

The public is said to be aroused over the issues of politics, but probably they are merely yelling out with the nightmare and will soon turn over to sleep once more.

The thing that gives some communities the reputation for being live towns is the fact that there are a few live fellows in them who are not satisfied to let things go as they are. It is a good thing for the community sometimes to become dissatisfied with things as they are.

DRIVING TO TIRE DESTRUCTION

If your car pulls left or right.

If your car is difficult to hold to a straight course.

If your car doesn't tend to straighten itself out after making a turn—then you'd better have it looked over without delay or be prepared to buy some new tires in the very near future, according to E. R. Booth, who carries a full line of Federal Tires at Grass Valley.

Mr. Booth goes on to say, "Those are definite signs that the front wheels of your car are out of alignment and that your tires are being subjected to excessive wear. If they are far enough out of line they may wear the tires out in less than 500 miles. And while those are definite signs that your wheels are out of line, it is well to remember that it is possible for wheels to be out of line even though none of those conditions may exist.

"Engineers say that the wheels on from 50 per cent to 90 per cent of all cars on the road today are out of line. That is because continuous road shocks throw the moving parts out of adjustment. Springs may sag or slip. Wheel bearings wear.

"The only way to know that wheels are in alignment is to have them inspected at least once a month.

"If motorists would have wheel alignment checked once a month; air pressure checked once a week and would drive with ordinary care, any good, standard make tire such as the Federal would give them full milegae."

HOME DEPARTMENT IN AN ENJOYABLE AFFAIR

ROUGH AND READY, Aug. 4, (Special to The Nugget)— The Home Department of the Penn Valley Farm Center met at the home of Mrs. Wade Brown with seventeen members present. Mrs. Loney instructed a class in painting while Mrs. R. L. Capps showed the different uses of sewing machine attachments at demonstrated by Miss Pixon of the University Extension of California, on her last visit here. The county has a quota of 60 people to teach these subjects to and the Penn Valley project leaders have already demonstrated to 21.

The Aggie Club held its regular business meeting at the Ruogh and Ready reservoir one day last week.

Mr. and Mrs. Dundian have returned from a trip to southern California.

Misses Mae Abbott, Verna Abbott and Norma Howe had their tonsils removed Thursday at the Jones Memorial hospital. They all stood the operation fine. Dr. Jones performed the operations.

The old Lampman place containing 80 acres, situated about eight miles below here, has been old to F. Owens and F. E. McCormack of Sierra county.

Word has been received here of the marriage of Albino Marra to Elide Garnzella, both residents of this place. They were married in Reno, Nevada, July 26th.

Mr. and Mrs. Allan Wheaton of Marigold and Mrs. Viola Crom of Marysville were visitors here. Mrs. Al Wheaton, of Marysville, who has been visiting her daughter, Mrs. McCrea, returned with them.

Russell Abbott, wife and family of Oakland are visiting F. L. Abbott and family. They planned on being here to attend the Campstew Sunday but while on a trip to Yosemite he broke an axle and had to wait until he could get parts to repair it.

Last Sunday was a busy day on the highway. Machines were trveling all night Saturday and all day Sunday to the Campstew grounds. Every one seemed to enjoy traveling over the strip of road which was oiled recently. Rough and Ready was deserted for the day and everyone that attended said that the Legion boys know how to entertain.

The most popular past time now is swimming. Every day one or more parties visit the swimming holes. Some go to the Rough and Ready reservoir and others go to Deer Creek.

Last week one of our old time residents passed away at Yuba City. Although Manuel Lopes left here several years ago and moved to Yuba City, his many friends remember him as a good neighbor and all regret his passing. One of his sons, Manuel, is still a resident.

The announcement has been received that Miss Dorothy Drew of Exeter recently became a bride. Miss Drew lived here with her parents about six years ago and attended school here. Her father was employed at the Baltic Mine.

Lucius Abbott of Oakland returned home after a visit with relatives here. His wife and family will accompany him.

John McCay, accompanied by his wife and severad friends motored up from Sacramento and attended the Campstew.

A highway machine was around Saturday painting the trees and bridges white. It is a great improvement.

Plans are under way to start a Sunday school service at 10 a. m. every Sunday if the children and grown-ups come regularly.

GOLD TRAP DEVICE HAS NUMBER GOOD POINTS

The Gold Trap installed at the end of the flume at the Joubert hydraulic mine at Camptonville has caused considerable comment among those interested in such inventions. The Trap is owned by a company in Seattle, and was put here more as an experiment, the local mine havinb been picked because it was considered an ideal place to test a contraption. The Joubert mine is held as an ideal property, and operated as nearly correct and efficient as possible, with very little gold escaping, and if the trap is a success here, it would be a great thing for other gravel properties. It is operated by the natural flow of the water and the invention is also intended to be placed in many waterways through which gravel is passing, which carries quantities of gold, which the Trap would catch.

As was expected, the trap did not contain much gold for it is not the practice of the mine to run gold loose out into the creek.

It was also noted that the swift waters and heavy gravel of the local mines were very wearing on the machine, and several times druing the run, different parts had to be repaired especially those of soft wood and rubber.

The device is very excellent for collecting sand, but the capacity is soon filled and then no more will be taken in. An improvement on this would be under current to draw off the sand so that it could be removed and more collected. Sand sometimes carries very good values, and this device may prove very valuable in this respect.

Henry Harrison of Auburn has been caretaker of the Trap during the past few months, keeping it in repair and working order. It is not known whether further experimenting will be done with the Trap in this section or not.

PERSONAL MENTION

Miss Carrie Naffziger of San Jose is here visiting old time friends.

Mr. and Mrs. J. T. Phelan and daughters, Virginia and Marian, have returned to their home in Oakland after a visit here with Mr. Phelan's mother, Mrs. Nellie Phelan.

James Grimes, prominent mining man of the Camptonville section came up from Oakland to spend a short time here visiting his sister.

Mrs. N. P. Searls and Miss Evelyn Kendall of San Francisco were here this week winding up the business affairs of the Camp Fire Girls Association.

W. P. Clerkin of Pike City was in Nevada City Tuesday.

Mr. and Mrs. M. Carlisle and children of San Francisco are here for a short vacation.

Arno F. Browning of French Corral was transacting business here early in the week.

The people who believe all the political platforms say, would be good ones to sell those stocks that are going to make them rich in a few weeks.

It is going to be awful hard to raise any campaign money this year, but probably they could get a few dollars by giving a food sale.

In the meantime you need not fear that "The Sidewalks of New York" will become the national anthem.

BAD FIRE DESTROYS PAPER MILL HOLDINGS

A bad fire starting about Camp No. 4 of the Crown Williamette Paper Company near Lake Tahoe shortly after noon Wednesday caused a loss in cut pulp wood ready for the mill as well as the camp. The local forest service headquarters sent a large crew of men and supplies to assist in corraling the blaze.

LOW RATES MAKE ELECTRIC COOKING ECONOMICAL

1542 electric ranges just installed in our customers' homes

The Electric Range gives beauty, cleanliness and perfect baking to women who love modern methods.

That is the reason why 1542 of our customers installed Electric Ranges in their homes from May 1st to June 23rd.

The Electric Range has white porcelain enamel that makes kitchens attractive. It bakes perfectly. And it does it automatically. The oven heats up to 400 degrees in 9 to 11 minutes —as fast as one can mix biscuits. The open coil cooking elements are now made smaller to fit your pans. Heat that was formerly wasted goes to work. Food cooks faster — less electricity is used.

While you're downtown, stop in and see the new Electric Ranges.

UNEXPECTED PROXY IS CAUSE MEETING DELAY

A dramatic entry of A. R. Archibald accompanied by his attorney, W. E. Wright ,upset the equilibrium of the pending special meeting of the Western Mines Consolidated, at the law offices of Walling, Armstrong & Ford Saturday morning. Archibald was armed with a telegraphic proxy of W. J. Webster and R. F. D. Lemon of New York. Owing to the reported shortness of the special call for the meeting which was to consider an increase in the directorate and other important business, mail proxies were not possible and a telegraphic proxy was sent from New York. A. D. Foote, C. H. Geldert vice president and Louis R. Ball secretary of the Western Mines Cons. were in attendance. Following a conference it was decided to recognize the Archibald proxy and the meeting was adjourned to Sept. 10th.

CAMPTONVILLE SCHOOLS PLANNING A BIG EVENT

The Camptonville grammar school which will stage an entertainment and dance on the evening of September 1st, is making very satisfactory progress and great interest being taken in the coming event. One of the best dance music orchestras in the northern part of the state has been engaged for this occasion and Camptonville promises to do itself proud. The kind of supper which only Camptonville can serve will be there for the eating.

Remember the date.

POLITICAL CHAT

Editor B. A. Cassidy of Auburn has had his candidacy for state senator strongly endorsed by the affiliated four brotherhoods of railroad workers in a meeting held in San Francisco. This is quite a feather in Bert's cap and should win votes in the Roseville District.

Ed Gaylord reports his campaign as looking better every day. The prospect of getting strong mining influence in the assembly from this district will send Nevada county strong to the polls. Ed has had legislative experience in past years.

It is amusing to see the number of Democrats who have flopped their party and vice versa for the Republicans. Makes nice reading.

Frank Davies, who was early in the supervisoral fight did an excellent thing in securing a number of names on the voting list which might not otherwise have been on. There ought to be a penalty for non-registration and non-voting.

Tom Coan is quietly plugging along in his quest for the privilege of representing his district on the county board.

It is noticable that most of the candidates for senate and assembly are giving their big attention to Nevada county, which usually casts the deciding vote.

The voters of this county will demand a showdown this year on what the nominees propose to do for mining and what they have done in the past.

One enthusiastic candidate plastered up a lot of poles along the state highway with signs, but an acomodating friend gave warning that the law was being violated and down came the signs.

The fight over in the Truckee section over supervisor looks to be a hot one. Charley Hope is smiling over the situation so far and avers his chances are pretty good for repeating.

Charley Eden, who is campaigning for supervisor in this district, considers his chances as being good at landing on the 28th. He has had considerable highway experience and is basing his campaign on a better road issue.

Congressman Harry Englebright's had such a commanding influence in the hearts of the thousands of voters of his district that there was no one willing to enter the lists against him. It is a splendid testimonial to his sterling worth in congressional halls which he is destined to enjoy for many years to come. More power to him!
